Summary

Data Engineer at LTM with hands-on experience in SQL, Python, PySpark, Azure cloud services, Databricks and Power BI. Strong understanding of data engineering concepts, ETL workflows and data processing techniques, with additional experience in full-stack application development and databases.

Education

Savitribai Phule Pune University, Pune
Bachelor of Engineering (Information Technology)

CGPA: 8.06
August 2021 – June 2025

Experience

LTM (LTIMindtree)

Jan 2026 – Present

Data Engineer – P1
Bengaluru, India – Hybrid

May 2026 – Present

- Allocated to the Unilever project as part of the Data Engineering team.
- As part of the Data Integration Team, working with SQL for data validation, incidents, production support, documentation and reporting.

Graduate Engineer Trainee (D&A-Azure-PySpark Domain)
Navi Mumbai, India

Jan 2026 – May 2026

- Completed training in SQL, Python, PySpark, Azure cloud services, Databricks and Power BI.
- Gained hands-on exposure to data engineering concepts and ETL workflows.

Projects

Retail Sales Analytics

Tech Stack: Azure Data Factory, ADLS, Azure Databricks, PySpark, SQL, Power BI, Delta Lake

- Built a retail sales analytics project using Medallion Architecture (Bronze, Silver, Gold).
- Processed CSV data from customers, products, orders, sales and stores datasets using Azure Databricks and PySpark.
- Performed data cleansing, date standardization, duplicate removal and email masking using PySpark.
- Created Silver and Rejected layer Delta tables for validated and rejected records.
- Implemented SCD Type-2 for customer and product dimension tables in the Gold layer.
- Connected Databricks SQL Warehouse with Power BI to build interactive dashboards and reports.

EduX: Centralized Smart E-learning Platform

[GitHub](#)

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, MongoDB Atlas, EJS, REST APIs, Bootstrap

- Developed a centralized e-learning platform to enhance the digital learning experience.
- Designed modules for course access, attendance tracking and quizzes, improving student engagement.
- Integrated user authentication, personalized dashboards and a task management system.
- Implemented a chatbot assistant for student support and created a mobile-responsive interface.

Skills

Programming Languages: Python, SQL

Data Engineering: PySpark, ETL, Data Integration, Data Processing, Delta Lake

Azure & Cloud: Azure Databricks, ADLS Gen2, Azure Data Factory, Azure Cloud Services

Data & Analytics: Databricks SQL, Power BI

Databases: MySQL

Tools & Platforms: Git & GitHub, VS Code, IntelliJ IDEA

Core Concepts: OOP, DBMS, SDLC

Soft Skills: Teamwork, Problem Solving, Adaptability

Achievements

- **Led a team** in the Smart India Hackathon (Internal Round), where the project idea was shortlisted.
- Participated in hackathons and project competitions, contributing to development and coordination.
